Career Objective

Motivated and detail-oriented aspiring Data Analyst with knowledge of Python, SQL, Microsoft Excel, Power BI, and Tableau. Skilled in data cleaning, data visualization, exploratory data analysis (EDA), and dashboard development. Eager to apply analytical and problem-solving skills to transform raw data into meaningful insights, support data-driven decision-making, and contribute to organizational growth while continuously developing technical expertise.

Technical Skills

- Programming Languages **:** Python, SQL
- Python Libraries: Pandas, NumPy, Matplotlib, Seaborn
- Database**:** MySQL, PostgreSQL
- Data Visualization: Power BI, Tableau
- Microsoft Excel**:** Pivot Tables, Pivot Charts, VLOOKUP, XLOOKUP, INDEX-MATCH, IF, SUMIF, COUNTIF, Conditional Formatting, Data Validation, Charts & Dashboards
- Version Control & Tools**:** Git, GitHub, VS Code, Jupyter Notebook, Postman • Methodologies**:** Agile, Scrum

---

Experience

Application Developer Intern

Nexanova Pro Tech LTD. | July 2026 – Present

- Developed secure Student, Admin, and Company modules with role-based authentication.
- Implemented student profile management including resume upload, skills, certifications, projects, portfolio, GitHub, and LinkedIn links.
- Built company management features to create profiles and post multiple job opportunities with eligibility criteria.
- Designed an application workflow where students can apply for jobs or opt out of placement drives.
- Enabled admin features for approving students, filtering eligible candidates, tracking applications, scheduling interviews, and updating selection/rejection status.

Technologies: HTML5, CSS3, JavaScript, Python (Flask/Django), MySQL, Bootstrap, Git, GitHub.

Projects

Blinkit Sales Analysis Dashboard

- Developed an interactive Power BI dashboard to analyse Blinkit's sales performance, product distribution, and outlet-level business metrics.
- Performed data cleaning, data transformation, and data preprocessing using Power Query to improve data quality and reporting accuracy.
- Created key performance indicators (KPIs), including Total Sales, Average Sales, Number of Items Sold, and Average Customer Rating.
- Designed interactive visualizations to analyse sales by item type, fat content, outlet size, outlet location, and establishment year.
- Implemented slicers, filters, charts, and KPI cards to enable dynamic data exploration and comparative analysis.
- Analysed sales trends and outlet performance to identify patterns and generate actionable business insights for data-driven decision-making.

Education

Bachelor of Computer Science (BCS)

Shivchhatrapati College, Chhtrapati Sambhaji Nagar — 2023 – 2026
CGPA: 8.56

HSC (Higher Secondary Certificate)

Raje Shahaji Jr.College (Khultabad) Percentage: — 2022 – 2023
70.00%

SSC (Secondary School Certificate)

Kai. Sahebrao Patil Vidyalaya (Khultabad) Percentage: — 2020 – 2021
89.40%

Certificates

• Walmart – Global Tech : Adv. Software Engineering job Simulation
